PE Automotive GmbH & Co. KG

Wuppertal, 16 June 2021

Take it easy Pneumatic springs from PE Feather-light movement. Powerful hold.

Powerful support for commercial vehicle drivers - versatile pneumatic springs from PE

Pneumatic springs from PE are a powerful support wherever a light and safe motion sequence is required in commercial vehicles, without the driver having to do it himself.

This product is an inconspicuous and yet important helper in the interior and exterior application area of the commercial vehicle. It facilitates, for example, the opening of hatches and bonnets, ensures that they are held open safely and prevents unintentional closing.

Pneumatic springs from PE score points with reliable durability, simple installation, tried and tested functional performance and comfortable damping. Depending on the area of application, the individual types differ in size and power variant.

PE is expanding its assortment to include pneumatic springs as of 17 June 2021, allowing the company to cover the majority of common pneumatic spring variants in the independent aftermarket.

These are immediately available from stock and ready for immediate use for common models via 24-hour express delivery.

About PE Automotive GmbH & Co. KG

PE, based in Wuppertal, is one of the leading suppliers in the independent aftermarket for commercial vehicles. With over 70 years of experience and expertise, the company sees itself as a mobility partner for fleet and vehicle operators and garages. The commercial vehicle spare parts programme by PE is based on the highest safety, quality and manufacturing standards. The countrywide and international network of PE trading partners ensures wide, reliable and fast distribution and availability of PE spare parts. Discerning independent and contract garages trust the company's garage-oriented product solutions for the perfect repair and maintenance of tractor units and trailers. An expert team of 160 heads works every day to efficiently meet the product and service requirements of customers – and to optimise them sustainably. PE Automotive GmbH & Co. KG belongs to the BPW Group. www.pe.de

About the BPW Group

The BPW Group researches, develops and manufactures everything needed to keep transport moving, safe, illuminated, intelligent and digitally connected. With its brands [BPW](#), [Ermax](#), [HBN](#), [HESTAL](#) and [idem telematics](#), the company group is a preferred system partner of the commercial vehicle industry around the globe for running gears, brakes, lighting, fasteners and superstructure technology, telematics and other key components for trucks, trailers and buses. The BPW Group provides a comprehensive range of mobility services for transport businesses, ranging from a global service network to spare parts supply and intelligent networking of vehicles, drivers and freight. The owner-operated company group currently employs 7,000 staff in more than 50 countries and registered consolidated sales of 1.41 billion euros in 2019. www.bpw.de/en
