PE Automotive GmbH & Co. KG

Wuppertal, 1 October 2020

New product set from PE at a promotional price. On 5 October 2020, PE Automotive GmbH & Co. KG will be adding charge air hoses to its range – in the usual exceptional quality.

Ensure continuous boost pressure – COMPARE FOR YOURSELF!

Charge air hoses in PE brand quality provide the necessary flexible connection between the individual components of the intercooler system. They ensure that no condensed intake air is lost while it is being transferred through the system.

The complete set comprises a charge air hose and two individual clamps to match your particular make of vehicle.

Quick and simple installation = time savings for you!

Thanks to the new, ready-to-fit U-shaped fasteners, no compromises need to be made. Everything is available as part of a set for a fantastic promotional price!

For Head of Product Management Christian Salten, the addition of charge air hose sets to the product range is something that makes a lot of sense: "We want to offer our customers a product of real quality so that they can carry out any necessary repairs to their intercooler systems as soon as possible."

PE charge air hoses are a safe bet for garages and fleet operators. The tried and tested quality also speaks for itself.

What's more – they are available immediately from the warehouse.

Thanks to 24-hour express delivery for the most common models, supply will never be an issue, making our product the ideal choice for repairs.
